

Emparejando una etiqueta Inteligente GPC con circuito integrado Global ID America ofrece la máxima protección para su mascota. Los circuitos integrados son una forma permanente de identificar a su mascota y se pueden vincular al perfil inteligente GPC que tiene registrado.

ST214
8mm MICROCHIP*

1.4mm x 8.5mm ISO FDXB implant in sterile needle and pack with barcode labels for animal identification.

ST214 sterile pack contains; a ready to use disposable syringe, pre-loaded with the 1.4mm x 8.5mm microchip and a strip of barcode labels.

TECHNICAL INFORMATION	
Model:	1.4 x 8.5mm
Chip Type:	EM4305
Dimensions:	Ø 0.08 x 0.47 in (Ø 2.12 x 12 mm)
Memory:	512 bit EEPROM
Material:	Bioglass
Temperatures:	Storage: -40° to +90° C, 1000 h Operating: -25° to +85° C Peak: 120° C, 100 h; 140° C, 10 h
Operating frequency:	134.2 kHz
Read range:	Dependant on reader and reading environment
Anti-migration:	Parylene coating
